

Üsküdar University
Generative Artificial Intelligence Usage Declaration Form

Assignment / Project / Thesis Title :
Name and Surname of Instructor / Supervisor :
Student Name and Surname :
Program / Department / Major Discipline :

() I did not use artificial intelligence based tools during the preparation process of this assignment / project / thesis.

() I used artificial intelligence based tools during the preparation process of this assignment / project / thesis. Within this scope, I declare the following regarding the use of artificial intelligence supported tools:

1. In this study, artificial intelligence-based tools were used solely to support the scientific production process. The purpose of use, the section or sections in which the tools were used, and the extent of use are clearly presented in Table 1. The scope of artificial intelligence use in this context does not include hypothesis development. Its use in stages requiring advanced skills, experience, and expertise, such as interpretation of results or theoretical discussion, has been highly limited and may only be included within the scope of decision support.
2. The use of artificial intelligence has been carried out in a manner consistent with the originality of the work, scientific ethical principles, and applicable legislation.
3. Improper use of artificial intelligence, including but not limited to generating text without citation, presenting automatically generated content as an original work, or providing misleading references, has strictly not occurred.
4. In this study, GAI has been used in accordance with the principles set out in the Ethical Guideline on the Use of Generative Artificial Intelligence in Scientific Research and Publication Activities of Higher Education Institutions.
5. I undertake that, in the event my above declaration is determined to be inaccurate, I acknowledge and accept any potential sanctions that may arise within the framework of higher education legislation, applicable ethical rules, and the Üsküdar University Guidelines for the Responsible Use of Generative Artificial Intelligence.

The student whose signature appears below accepts full responsibility for the content of the assignment / project / thesis, including any parts prepared with the assistance of generative artificial intelligence, and affirms that it complies with publication ethics.

Generative Artificial Intelligence Usage Table

Table 1 has been prepared to ensure transparent disclosure of information regarding the artificial intelligence supported tools used in your study. Please complete the rows in the table below, if applicable, for each GAI tool used in your work, in accordance with the Üsküdar University Guidelines for the Responsible Use of Generative Artificial Intelligence and by referring to the example provided below.

Table 1: Declaration Table for the Use of Generative Artificial Intelligence

No	Artificial Intelligence Tool	Purpose of Use	Purpose of Use	Method of Use
1				
2				
3				

Proportion of Generative Artificial Intelligence in the Text* :
Generative Artificial Intelligence Detection Tool Used** :

Example Use

No	Artificial Intelligence Tool	Purpose of Use	Purpose of Use	Method of Use
1	ChatGPT (OpenAI)	Preliminary reading and obtaining suggestions for the conceptual framework	Introduction and literature review	Guiding questions were asked to obtain a literature summary. The generated response was revised and used after modification.

* Refers to the percentage (%) similarity ratio.

** The GAI detection tool may be an application or a website. The name of the relevant application or the website address must be provided.
